Application/Control Number: 10/601,973

Art Unit: 2875

1. The supplemental response with amendment filed on April 29, 2005 has been entered. Accordingly:

- Claims 1 and 5 have been amended; and
- The title has been am ended

Allowable Subject Matter

2. Claims 1-15 are allowed.

The prior art of record, including Davis et al. (US Patent No.: 4,969,074), Dejonc (US Patent No.: 4,159,511) and Pennow (US Patent No.: 2,359,151) does not show or suggest the applicant's invention as claimed. Specifically, the prior art of record does not disclose an optical system assemblies combining:

a segmented radial disk located on the optical axis, and the radial disk including parabolic or elliptical radial segments having their focal points coinciding with a quasi point source as recited in claims 1 and 5.

The above-indicated combination, including segmented radial disk coaxial with the optical axis of the device, makes this invention unique.

Neither combined nor individual teaching of Davis et al. ('074), Dejonc ('511) and Pennow ('151) discloses an optical system including a segmented radial disk and its positioning as detailed above, and as claimed by the applicant.

Therefore Claim 1 is allowed over prior art.

Application/Control Number: 10/601,973

Art Unit: 2875

Claims 2-4 and 7-17 are necessarily allowed because of their dependency on the allowed base Claim 1.

Claim 6 is necessarily allowed because of their dependency on the allowed base Claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hargobind S. Sawhney whose telephone number is 571 272 2380. The examiner can normally be reached on 6:15 - 2:45.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandra O'Shea can be reached on 571 272 2378. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should
